

# The Astrid Strata

## Low Profile Linear Luminaire

The Astrid Strata is a low profile LED linear luminaire, designed for surface mounting, with the versatility of use in many applications. It is modern and sleek in appearance and is suitable for both commercial and domestic requirements. The Astrid Strata is a two component luminaire constructed with a steel back body, powder coated with a white finish and a clip-in LED module.

Available in two sizes the Astrid Strata is fitted with High Output LED SMD Chips and driven with an Osram or equivalent proprietary branded driver. Whilst supplied as standard with fixed output illumination, there are options to supply with dimmable drivers for remote switch dimming or via occupancy detection.
