

PHOENIX

PHOENIX

An Elegant
freestanding
uplighter
suitable for
commercial or
interior design
projects

Offering ceiling wash uplight and overall support light, the PHOENIX is constructed with sleek modern lines incorporating a stabilising weighted base and is supplied in white, black or

pewter with a matt textured finish. Using the latest compact fluorescent technology and High Frequency Control Gear, the Phoenix provides a powerful yet energy efficient luminaire.

Features

- Elegant, slimline with a stabilising weighted base
- High efficiency light output to illuminate dark ceilings
- Freestanding and connected with plug & lead for immediate use
- A range of lamp options
- Available in white, black or pewter with matt textured finish
- A range of uses including: office and reception lighting, banking halls, hotel lobbies and bedrooms, galleries and general interior design use.
