

Highbays for retail

DETAILS

A range of stylish Highbays for use in commercial applications, offering the high light output normally provided by the standard industrial Highbay but designed for retail environments. With energy efficiency in mind this luminaire is available in a range of sizes to accommodate the compact fluorescent lamps as well as the HQI and CDMT discharge lamps. With the main body finished in spun aluminium it is available with either Prismatic or Aluminium Reflectors, providing versatility to meet most interior design requirements.

FEATURES

- Stylish design
- Suspended mounting
- High Frequency Control Gear as standard for compact fluorescent lamps
- Option of Prismatic or Aluminium Reflectors

APPLICATIONS

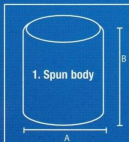

- Retail
- Retail warehouse
- Restaurants
- Industrial

CONSTRUCTION

Spun aluminium body available in 3 sizes, dependant upon lamp type, and designed to take a clear acrylic prismatic diffuser or an aluminium reflector spun from pure aluminium, which is satin finish anodised.

PRODUCT RANGE AND ORDERING DETAIL

Nominal changes in sizes may occur due to manufacturing tolerances.
