CG Corona glasses are supplied complete with knurled chrome fixings, 25mm chrome pillars, perforated steel Corona ring and choice of patterned toughened safety glass, tested to BS6206. Please add suffix **/UB** to luminaire code.

DG001-11 dropped glass is supplied complete with knurled chrome fixings, 10mm chrome pillars and choice of patterned toughened safety glass, tested to BS6206. Please add suffix **/UB** to luminaire code.
To create an IP44 seal, attach the glass directly to the bezel.

DG201-14 are only compatible with twin lamp luminaires.

Over-bezels can also be retro-fitted on site at a later date, creating a variation in visual appearance without the need to change luminaires. RAL finishes are available to order.

Bezel & Fixing Options

CH Chrome GO Gold BA Brushed Aluminium

UB Universal bezel allows use of dropped / IP44 sealed glass during manufacture or retro-fitted once installed on site.

GF004 Cone fixing option
