

Energy Efficient Compact T5 Recessed Luminaire

DESCRIPTION

A stylish recessed luminaire for office or retail environments combining the latest developments in lamp technology with an aesthetically pleasing design. Constructed to fit into a 600mm x 600mm ceiling grid, this luminaire consists of a centrally positioned louvre and side wings incorporating a perforated design feature. Available in two models – 600mm x 600mm x 3 lamp or 600mm x 600mm x 4 lamp – the luminaire uses the T5 High Efficiency Lamp and is fitted with warm start High Frequency Control Gear

ENERGY EFFICIENCY

Whilst the T5 Lamp wattage rating is 14w as opposed to the T8 Lamp, which is 18w, the overall light output of the luminaire is comparable and as such provides an energy saving of 22%.

CONSTRUCTION

Fabricated steel body with fully welded construction, which is then iron phosphate pre treated, prior to the application of 100-micron epoxy polyester powder coat. The louvre is fitted with wishbone springs and is available either in CAT 2, or Low Brightness Louvres or Prismatic Diffuser
