## FEATURES

The Astrid Elite Premium series is stylish and compact - ideal for retail, museum and gallery environment.

A unique modular system with track, surface, pendant and wall mount options, the sleek lines of the fittings are achieved through integration in the 'engine' of the driver and so no external components are visible.

Can also be used with a wide range of attachable optical accessories for multiple effects.

The Premium series is designed to give higher lumen output (up to 110lm/w) and wide range of adaptability with a range of optical accessories and wide choice of beam angles.
