- > Interchangeable body and mounting ring
- > On/off, TRIAC and DALI versions

FEATURES

The Astrid Luna Premium series is stylish and compact - ideal for commercial, residential, retail, museum and gallery environment.

A unique modular system with sleek lines achieved through the separate driver and a 100-lm/w COB LED that clips into mounting ring - so no external components are visible

The Premium series is designed to give a high lumen output solution using different mounting rings – shallow downlight, deep downlight and moveable downlight.
