- > Colour output – 3000k, 4000k
- > CRI 80+, CRI 90+
- > Interchangeable body and mounting ring
- > On/off, TRIAC and DALI versions

FEATURES

The Astrid Luna Standard series is stylish and compact - ideal for commercial, residential, retail, museum and gallery environment.

A unique modular system with sleek lines achieved through the separate driver and a 85-lm/w COB LED that clips into mounting unit - so no external components are visible

The Standard series is designed to give a uniform lighting output solution through different mounting rings – shallow downlight, deep downlight and moveable downlight.
