

INSTALLATION INSTRUCTIONS

ODET LTM-3W-EM3

Important Safety

1. Before installation or maintenance, ensure that the mains supply to the luminaire is switched off and circuit supply fuses are removed or the circuit breaker is turned off.
2. It is recommended that only a qualified electrical contractor carries out the installation of this luminaire and that the luminaire is installed in compliance with the current edition of the IEE wiring Regulations.
3. The person carrying out the installation is to check and verify that the total load on the circuit, including that of this luminaire does not exceed the rating of the circuit cable, fuse or circuit breaker.
4. Where applicable, careful consideration should be taken during installation to ensure that all fixings and/or suspensions are of a suitable size for the luminaire being installed.

Installation:

1: Isolate mains supply

Ensure that the mains supply is switched off before installing, maintaining or servicing the emergency luminaire.

2: Remove cover

3: Body installation

Drill where indicated. Use wall plugs and screws.
*Supplied screws and wall plugs are suitable for masonry only. Please purchase alternative fixings if required.

4: Wire size and preparation
